

Carousel enables clients to connect and collaborate the way modern IT users demand, while creating the necessary technology runway for future growth. With deep expertise across a vast portfolio of unified communications and collaboration, cybersecurity, cloud, as-a-service, carrier, and data center technologies, Carousel designs, implements, and supports solutions from advisory through management.

By offering professional and managed services, Carousel helps clients remove business inefficiencies, while driving transformation for the business. Headquartered in Exeter, RI, there are nearly 20 offices across the United States and internationally, as well as three Network Operations Centers.
