

# IT Outsourcing Services

*"By combining our technical expertise with an inquisitive, open mindset, Carousel asks the right questions about your IT challenges to help you achieve desired results."*

*Bill Thompson, Senior Vice President of Product and Service, Carousel*

The competition for IT talent is fiercer than ever. Global tech giants are scooping up many of the best and brightest minds, further exacerbating an already existing skills shortage. To help you combat these challenges, Carousel offers top talent available for colocation at your site, helping you fill existing skills gaps, keep costs down, maintain a lean but efficient staff and focus on core business initiatives.

## YOUR CHALLENGES

- The rapidly rising cost of hiring and retaining top IT talent
- Difficulty identifying the next-gen skill sets your organization needs
- Being forced to overpay for talent and spend critical time training them
- Too much time spent on "run" tasks and not enough on innovation

## THE CAROUSEL OFFERING

Carousel offers technology talent for colocation at your site to help fill gaps in networking, unified communications and collaboration, data center and security.

Whether you need IT assistance for a short-term project or for a long-term engagement, Carousel's IT outsourcing allows you to onboard talent quickly, without the hassle of vetting, interviewing and hiring candidates.

## KEY BENEFITS

- Fill skills gaps quickly without worrying about vetting and selecting qualified candidates
- Avoid overpaying for talent and incurring additional expenses for training
- Control costs by maintaining a lean and efficient IT staff
- Keep your most skilled in-house personnel focused on strategic goals and innovation

## INDUSTRY INSIGHT

"Even IT heavyweights like Adobe and Facebook struggle to adequately source and screen enough engineering talent to meet the demand for these skills."
