

Transform Your Workplace with Newline

Newline focuses on creating products that help you work more efficiently. From our award-winning and easy-to-use interactive touch panels, to our innovative desktop solution and wide range of software, Newline has everything you need to bring in-person and remote work success into your business.

Large Format Displays

Collaborate and meet with our easy to use touch & non-touch panels.

Desktop Collaboration Solutions

Add touch devices to your small/home office spaces to collaborate & meet.

Accessories

Upgrade your meetings with impeccable cameras and on-board computers.

Software

Monitor devices and streamline meeting start ups with software add-ons.

Why Choose Newline?

- All Newline products are easy for anyone to use.
- Completely non-proprietary - use the software you want.
- Perfect for conference rooms and huddle spaces.
- Optimized for modern collaboration - in-person and virtual.
- Seamless integration into existing collaboration systems.

IP Series

Never worry about your network being vulnerable again. The IP Series brings you a secure interactive display with a seamless touch experience, letting you focus on communication and collaboration. Connect your team to the world without compromising sensitive information.

X Series

Take your collaboration to the next level with the award-winning X Series. This Android-based unified collaboration system is complete with two integrated cameras, embedded speakers, an on-board computer and superior touch. The X Series connects your team with each other and the world.

NT Series

Bring your presentations to life with the NT Series, a large format commercial display that lets you focus on just the tools you need to succeed. Save on costs with a non-touch display experience. Rated 24/7, this commercial grade display works as hard as you do.

RS+ Series

Collaborate without limits with the RS+ Series, an interactive touch display designed around hassle-free communication. This powerful interactive display runs on an embedded Android 8.0 operating system. No more buffering or delays, get right to work taking notes on an impressive digital whiteboard.
