

Connect and collaborate in the office, at home, and on the go.

A unified platform for your clients' workplace initiatives.

The Appspace workplace experience platform helps employees stay in sync with centralized company communications published to any device or display and connects the workplace with solutions to reserve spaces and manage visitors.

Connect People

Consistent, timely communications are more critical than ever. Your clients' teams may be geographically dispersed, but that doesn't mean they need to feel out of the loop. Appspace cuts through the noise, bringing important information to everyone – no matter where they work.

- **Employee App** – Centralize company messages, videos, and more in an app available on desktop or mobile.
- **Enterprise Messaging** – Publish company content to the messaging apps you use most like Slack, Microsoft Teams, Webex, Workplace & more.
- **Workplace Displays** – Reach people at the office with company messages, announcements, reports, and more on any screen.
- **Collaboration Displays** – Leverage Appspace integrations with collaboration technologies to share relevant information when they aren't being used for calls and presentations.
- **IPTV and Town Halls** – Stream live and recorded video, including broadcast TV, on workplace displays.

Connect Spaces

Simple and user-friendly workplace management and reservation tools to promote keep your spaces in sync and your people safe. Manage visitors and schedule meeting rooms, desks, equipment and more.

- **Room & Desk Reservation** – Find and book available resources and workspaces. Quickly identify and reserve locations to save time and minimize confusion.
- **Visitor Management** – Manage building capacity and the flow of visitors entering your offices. Provide a welcoming and seamless experience to your employees and guests.
- **Maps & Wayfinding** – Upload rooms and resources or create your own and use simple point-and-click space mapping for floors, buildings, and campuses. Help employees and guests find spaces and each other.

Apps & Integrations

The same experience and functionality across a broad set of devices, browsers, and enterprise messaging apps.
